Please note: Unless otherwise indicated, all carried motions are by unanimous vote.

(1) CALL TO ORDER

The meeting was called to order @ 1:00pm. The Agenda was approved as presented.

(2) ADOPTION OF PREVIOUS MINUTES

Approval of previous minutes: It was **Moved/Seconded** to approve the minutes of the Council Meeting held on November 24, 2025. **CARRIED**

To access Council meeting minutes, Bylaws, Rules and other information, please sign onto the Strata maintained website at: bentleyportmoody.ca

(3) FINANCIAL REPORT

- 3.1 Financial statements:** Council reviewed the financial statements up to December 2025 and **Moved/Seconded** to approve these. **CARRIED**
- 3.2 Arrears:** There are no owners that are in arrears.

(4) BUSINESS ARISING FROM PREVIOUS MINUTES

- 4.1 Roofing Assessment:** Council received a free roofing report from Robinson Roofing. Overall, the roof is in good shape. They did identify several minor issues and quoted \$2997.21 + GST to address these. Council noted these are very minor issues and do not require a 3rd party roofer to do. They rejected the quote.
- 4.2 Grates & Pit repairs:** Quotes for these repairs were received from Pacific Ace and Jim Corlett. Jim Corlett's was chosen. The scope of this work includes applying a waterproof membrane around the tops and outside edges of the pits, applying a coating in the pits and installing grates.
- 4.3 Roof anchor permits expire March 3rd:** Council and Cy are following up to get the roof anchors permits updated as they are required before any exterior work is done by Bemco & Black Tie.
- 4.4 Bemco exterior maintenance report:** Bemco will be scheduling exterior building repairs late May – early June. Notices will be posted on the website and in the building prior to the start of this work.
- 4.5 Black Tie dryer vent, window, railing, and exterior balcony washing is scheduled for May 4th – 15:**

(5) NEW BUSINESS

- 5.1 Annual fire inspection report:** City Fire completed the annual fire inspection and reported that access was not available to approximately 25 units. Follow-up inspections will be scheduled. Council reminds owners that they are responsible for ensuring access to their units for this mandatory testing. If access cannot be provided and additional visits are required, any associated costs will be charged back to the unit. City Fire also found several expired smoke alarms. They replaced some during their visit and will replace the 12 remaining during their follow-up..
In addition, high pressure was identified in the fire pump/sprinkler system. Council is awaiting a quote from Richtek to address this issue.
- 5.2 Leak issues completed & paid:** There were several units that were waiting for drywall repairs after their walls had been opened up to address leak issues. One of these repairs was due to a common property leak and Strata covered the costs. The others were due to issues within the units, and the owners covered the cost of those repairs.
- 5.3 Closing of front door:** Push to Open Doors came out to fix an issue with the front entrance doors. They also advised the replacement of the concealed door closer. Their quote for this was \$2,362.50. This work was approved and completed.
- 5.4 Building post repair:** Canstar restoration hit one of the posts driving out of the parkade. We followed up with Jay at Canstar to have this repaired. They were not able to do it themselves and would have had to go with a 3rd party. Jim Corlett was able to do the repair on this post and a small repair on the post at the front door for \$210.00. Jay at Canstar agreed to pay this. Cy has been following up with Jay to get the \$210.00
- 5.5 Elevator tiling:** Don Cook followed up with TK elevators to confirm there is no issue with re-tiling the elevators. Council is scheduling the installation of the new elevator tiles.
- 5.6 Trash compactor:** Rosa reported that the trash compactor was making odd sounds. Waste Control Services tech was on site Tuesday Jan 20th. He greased the contact points in the bulkhead and this resolved the issue.
- 5.7 Rooftop boiler leak:** Rosa advised the boiler on the rooftop is leaking. Citywide attended and reported a leak in the pipe leading to the boiler. This leak will be repaired by Citywide.
- 5.8 HVAC in parkade:** Rosa advised cold air in parkade. Citywide looked at the parkade when on site for boiler. Joanie from Citywide advised there was also a leak in the parkade they were able to get repaired. I asked for further confirmation if this leak is related to the loss of heat. She was not certain and would follow up.

(6) CORRESPONDENCE

- 6.1 Package Thefts in lobby:** Council received correspondence from an owner regarding package thefts in the lobby which included a suggestion to install package storage lockers. Council obtained quotes from Blue Box for several locker configurations; however, the costs and ongoing subscription fees are significant. As theft has not previously been a serious issue, Council is not proceeding with this option at this time. Council reminds residents to promptly collect delivered packages and not to buzz in or grant access to anyone they do not recognize or are not expecting.

(7) ADJOURNMENT

There being no further business, the meeting was adjourned at 3:00p.m.

These minutes were prepared on behalf of Strata Council by Cy Begon, Strata Agent for BCS2176.
